

Please Read Below Regarding Expiration Dates - Posted 3/24/2026

In October of 2025 there was a security breach that required the Louisiana Board of Massage Therapy to remove the website to protect the data of all licensees. Although the Board has worked with the web development team diligently to have the processing function of renewals available, the office is still experiencing a delay

We understand not having licenses until after the expiration date is causing much frustration and concern since some licenses will be not be received potentially 30 days after the expiration date. **Understandably the Board will not hold licensees and businesses responsible for a processing delay that could not be avoided and ask that employers, credentialing agencies etc. please do the same.** It is important to note that at this time **NO licenses are being processed by the office.** Although we anticipate that the office will have the ability to renew within the next two weeks, this means processing will begin close to or after the expiration of ALL license on March 31st.

Lastly, licenses will be processed in the order received.

The later a renewal packet is received, the later the license will be processed.
